

# Mossfield Primary School Knowledge Organiser

Year 3 — **Online Safety and Email.** Not everything on the Internet is true and whilst it is a fantastic resource the pupils need to ask themselves, is it fact or fiction?

## Key Learning

To know what makes a safe password and methods for keeping passwords safe.

To understand how the Internet can be used in effective communication.

To consider the truth of the content of websites.

To learn about the meaning of age restrictions symbols on digital media and devices.

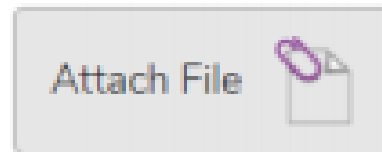

To open and respond to an email using an address book.

To learn how to use email safely.

To add an attachment to an email.

To understand how a blog can be used to communicate with a wider audience.

# Key Vocabulary

Address book	A list of people who you regularly send an email to.
Attachment	A file, which could be a piece of work or a picture, that is sent with the email.
Blog	A regularly updated website or web page, typically one run by an individual or small group, that is written in an informal or conversational style.
CC	A way of sending a copy of your email to other people so they can see the information in it.
Compose	To write or create something.
Email	Messages sent by electronic means from one device to one or more people.
Formatting	Allows you to change the way the text of an email looks. For example, you can make the text bold or underline it.
Internet	A global computer network providing a variety of information and communication facilities, consisting of interconnected networks and computers.
PEGI rating	A rating that shows what age a game is suitable for.
Password	A secret word, phrase or combination of letters, numbers and symbols that must be used to gain admission to a site or application such as a website.
Save to draft	Allows you to save an email that you are working on and send it later.
Send	To make an email be delivered to the email address it is addressed to
Spoof website	A website that uses dishonest designs to trick users into thinking that it represents the truth.
Username	An identification used by a person with access to a computer, network, or online service.
