

Mossfield Primary School Knowledge Organiser

Year 6 Autumn- Bird House Builders

To look at different bird houses that people provide for birds in their gardens. To look at the materials used and features that bird houses have. To design and make a bird house for a specific bird we find around Mossfield Primary.

Key Learning

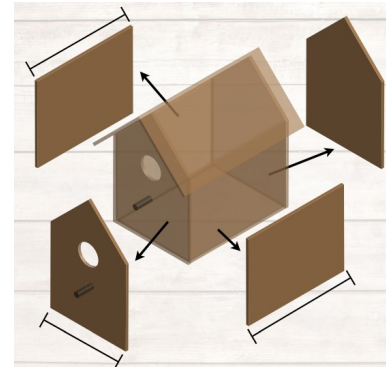

I can investigate the purpose and different styles of bird houses.

I can investigate the materials and features of bird houses.

I can draw a 3D diagram of a birdhouse and explain how it is joined.

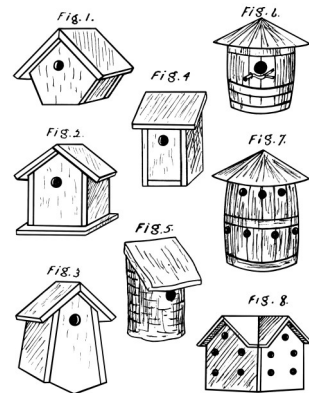

I can make a poster that explains how to work safely with the tools I will be using.

I can practise using the tools and skills needed to create a birdhouse.

I can design a bird house for a specific bird thinking about its needs.

I can make a bird house following my plans and design.

I can evaluate my bird house thinking about its strengths and weaknesses.
